

**NUPLA**

**CERTIFIED INSULATED**

**NON-CONDUCTIVE DIGGING TOOLS**

Manufacturer of the industry's strongest tools,  
Nupla now brings you the new standard in:  
**ELECTRICAL SAFETY**

- Nupla Certified Non-Conductive tools undergo 100% testing at 10,000 volts to meet or exceed IEC 60900 and ASTM F1505 standards.
- Each tool carries a unique serial number permanently registered at Nupla Corporation.
- Non-conductive solid Nuplaglas® handles are manufactured in Safety Orange for easy identification and provide electrical insulation on the job. Handles marked 1000V with high voltage double diamond.
- Used by utilities, railroads, highway departments and electrical contractors.
- Certified shovels are manufactured with Nupla's patented Power Pylon® blades. No shank means less breakage in the severest of conditions. These closed back blades out perform solid shank blades of similar gage and carry 17% more payload.
- Digging Bars, Post Hole Diggers and Picks are all produced to the same electrical standards with Nuplaglas handles and high grade, heavy duty steel.
- Certified Non-Conductive, Nuplaglas®, Power Pylon® and Nupla technology combine to give you the safest and strongest digging tools available.

Non-Conductive Nuplaglas® handles, tested to 10,000 V with registered serial number

Patented Heavy Gauge Power Pylon® Shovel Blades

\*Non-Conductive Tools do not replace the need to practice job safety.  
Always wear protective clothing and gear when working on or near high voltage.
